

## **IN THE SPECIFICATION**

Please amend the following sections of the specification as follows:

- A. Please amend the “Abstract” by replacing original paragraphs of the prior version of international application PCT/CN2004/00402 with abstract paragraphs of the substitute specification being submitted, pursuant to 37 CFR 1.125. **The substitute specification and the “Abstract” therein does not contain new matter.**
- B. Please amend the “Field of Invention/Background of the Invention” by replacing original paragraphs of the prior version of international application PCT/CN2004/00402 with field of invention/background of the invention paragraphs of the substitute specification being submitted, pursuant to 37 CFR 1.125. **The substitute specification and the “Field of Invention/Background of the Invention” therein does not contain new matter.**
- C. Please amend the “Invention Content” by replacing original paragraphs of the prior version of international application PCT/CN2004/00402 with invention content paragraphs of the substitute specification being submitted, pursuant to 37 CFR 1.125. **The substitute specification and the “Invention Content” therein does not contain new matter.**
- D. Please amend the “Brief Summary of the Invention” by replacing original paragraphs of the prior version of international application PCT/CN2004/00402 with brief summary of the invention paragraphs of the substitute specification being submitted, pursuant to 37 CFR 1.125. **The substitute specification and the “Brief Summary of the Invention” therein does not contain new matter.**

E. Please amend the “Detailed Description of the Invention” by replacing original paragraphs of the prior version of international application PCT/CN2004/00402 with detail description of the invention paragraphs of the substitute specification being submitted, pursuant to 37 CFR 1.125. **The substitute specification and the “Detailed Description of the Invention” therein does not contain new matter.**
